PROFESSIONAL PROFILE

Junior Frontend Developer focused on React, Next.js and TypeScript, with UI/UX skills and a practical full-stack foundation. Builds responsive web applications from interface design through development and deployment, with project experience in authentication, CRUD, API integration and database-backed interfaces. Successfully completed the 2,300-unit, 46-week web-development qualification at Syntax Institut in September 2026. Available immediately for junior frontend, React, Next.js and web-development opportunities. Brings reliability, organization and process awareness from an earlier career in purchasing management, international procurement and logistics operations.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React, Next.js, Vue.js, Angular fundamentals, Vite, Tailwind CSS, Styled Components, Responsive and mobile-first design

Backend and APIs: Node.js, Express, Middleware, REST APIs, GraphQL, Axios, Next.js Server Actions, Serverless functions

Databases: PostgreSQL, Prisma ORM, Firebase, Firestore, MongoDB fundamentals

Authentication and security: Session-based authentication, bcrypt password hashing, HTTP-only cookies, JSON Web Tokens, Protected routes, Authorization and ownership checks, Firestore Security Rules, CORS, CSRF and XSS awareness

Testing and quality: Jest, Cypress, Browser debugging, Lighthouse, Accessibility and A11Y, Performance optimisation, Lazy loading, Code splitting, Semantic HTML

UI/UX and product design: Figma, UI design, UX design, Wireframes, Prototypes, Design systems, Auto Layout, User personas, User flows, User research, Empathy maps, Information architecture, Developer handoff

Tools and deployment: Git, GitHub, GitHub Actions, CI/CD, VS Code, npm, Docker fundamentals, Vercel, Firebase, Contentful, Strapi, ngrok

Development practices: CRUD, Database design, API integration, Requirements analysis, Technical documentation, Scrum, Kanban, Agile development, Responsive design, Deployment and iteration

SELECTED PROJECTS

Pennee

FINAL PROJECT

Final Course Project · Full-Stack Expense Tracker

- Built with Next.js, React, TypeScript, PostgreSQL, Prisma, Server Actions, API route handlers and Vercel.
- Implemented secure sessions, bcrypt password hashing, protected routes and user-owned accounts, income and expense transactions, budgets and multiple currencies. Responsive web app deployed on Vercel; Android version built with Capacitor.
- Used Decimal for money and correction transactions for completed history; preserved original transaction currency and conversion information when recalculating current totals.

ItemVault

LIVE

Private personal inventory application

- Developed with React, Vite, Firebase Authentication and Firestore for responsive desktop, tablet and mobile use.
- Added private inventories, item creation, categories, locations, status, search, filtering, real-time listeners, protected routes and Firestore security rules.

SELECTED PROJECTS CONTINUED

Cosmic Styles LLC

LIVE

Real-world barbershop business web application

- Designed and built a responsive HTML, CSS and JavaScript interface for services, pricing, business information, gallery content and appointment requests.
- Implemented a service-to-date/time-to-customer-details booking flow with a prefilled WhatsApp handoff and an optional Vercel serverless email-notification path.

EDUCATION AND IT QUALIFICATION

Qualifizierung zur IT-Fachkraft

09/2025 - 09/2026

Syntax Institut · Successfully completed · 2,300 teaching units · 46 weeks

Successfully completed on 11 September 2026 under §81 ff. SGB III. Project-based training covering product and UI/UX design, software and web development, frontend specialization, backend fundamentals, databases, authentication, APIs, Git/GitHub, deployment, agile/Scrum workflows, debugging and technical documentation.

- Produktdesign & -entwicklung in der IT - 09.01.2026 - 700 units
- Einführung Software- und Webentwicklung - 02.04.2026 - 600 units
- Vertiefung: Frontend Entwicklung - 26.06.2026 - 500 units
- Spezialisierung & Arbeitsmarktvorbereitung - 11.09.2026 - 500 units

PROFESSIONAL EXPERIENCE

Preymesser

2023 - 2025

Logistics Operations Associate

Supported warehouse and transport operations through loading, offloading and material handling. Worked closely with operational teams to maintain safe, reliable workflows and consistent day-to-day execution.

Haeger & Schmidt

2022 - 2023

Industrial Logistics Operator

Performed truck and vessel loading and offloading, crane-assisted material handling, blade cutting and work-area maintenance within a safety-focused industrial environment.

SIB Enterprises

2007 - 2021

Purchasing Manager - International Procurement & SAP

Managed purchasing and procurement operations, including international travel for supplier sourcing and business coordination. Used SAP to manage purchasing workflows, orders, supplier records and procurement administration, while coordinating import and export activities. Developed strong organization, responsibility, negotiation and cross-cultural communication skills.

QUALIFICATIONS AND CERTIFICATES

Qualifizierung zur IT-Fachkraft

COMPLETED

Syntax Institut · Final certificate · 11.09.2026

Final certificate: Web Development - Qualification for IT and AI-Supported Professions. Digital Product Designer IHK (issued 15.01.2026). Junior WEB-Developer (IHK) and Web Development Specialist (IHK): successfully completed - official certificates pending.
