PROFESSIONAL PROFILE

Junior Frontend / Full-Stack Web Developer and UI/UX Designer with practical project experience building responsive web applications from concept and interface design through development and deployment. Experience with React, Next.js, TypeScript, JavaScript, Prisma, PostgreSQL, Firebase and MongoDB, including authentication, CRUD, API integration and database-backed interfaces. Currently completing a project-based IT qualification at Syntax Institut. Brings reliability, organization and process awareness from an earlier career in purchasing management, international procurement and logistics operations.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Flexbox, CSS Grid, Responsive Design, Tailwind CSS, Vite

Backend: Node.js, Express, REST APIs, Next.js Server Actions, API Route Handlers

Databases: PostgreSQL, Prisma ORM, Firebase Firestore, MongoDB, MongoDB Atlas

Security: Firebase Authentication, session-based authentication, bcrypt, HTTP-only cookies, protected routes, authorization, ownership checks, Firestore security rules

UI/UX: Figma, wireframes, prototypes, user flows, personas, empathy maps, sitemaps, information architecture, usability, responsive interface design

Tools & practice: Git, GitHub, VS Code, npm, Docker, Vercel, ngrok, CRUD, API integration, debugging, database design, requirements analysis, Scrum, Agile development, technical documentation

SELECTED PROJECTS

Penée

FLAGSHIP PROJECT

Multi-account, multi-currency personal finance application

- Built with Next.js, React, TypeScript, PostgreSQL, Prisma, Server Actions, API route handlers and Vercel.
- Implemented registration, login, logout, sessions, ownership checks, accounts, transactions, income, expenses, budgets, currencies, exchange rates, a dashboard, ledger and statements.
- Used Decimal for money and correction transactions for completed history; preserved original transaction currency and conversion information when recalculating current totals.

xpense-trvcker.vercel.app

ItemVault

LIVE

Private personal inventory application

- Developed with React, Vite, Firebase Authentication and Firestore for responsive desktop, tablet and mobile use.
- Added private inventories, item creation, categories, locations, status, search, filtering, real-time listeners, protected routes and Firestore security rules.

SELECTED PROJECTS CONTINUED

Cosmic Styles LLC

LIVE

Real-world barbershop business web application

- Designed and built a responsive HTML, CSS and JavaScript interface for services, pricing, business information, gallery content and appointment requests.
- Implemented a service-to-date/time-to-customer-details booking flow with a prefilled WhatsApp handoff and an optional Vercel serverless email-notification path.

Qualifizierung zur IT-Fachkraft

15.09.2025 - 14.09.2026

Syntax Institut · 2,300 Unterrichtseinheiten

Structured, project-based training covering product and UI/UX design, software and web development, frontend specialization, backend fundamentals, databases, authentication, APIs, Git/GitHub, deployment, agile/Scrum workflows, debugging and technical documentation.

- Produktdesign & -entwicklung in der IT - 700 UE
- Einführung Software- und Webentwicklung - 600 UE
- Vertiefung Frontend Entwicklung - 500 UE
- Spezialisierung & Arbeitsmarktvorbereitung - 500 UE

PROFESSIONAL EXPERIENCE

Preymesser

2023 - 2025

Logistics Operations Associate

Supported warehouse and transport operations through loading, offloading and material handling. Worked closely with operational teams to maintain safe, reliable workflows and consistent day-to-day execution.

Haeger & Schmidt

2022 - 2023

Industrial Logistics Operator

Performed truck and vessel loading and offloading, crane-assisted material handling, blade cutting and work-area maintenance within a safety-focused industrial environment.

SIB Enterprises

2007 - 2021

Purchasing Manager - International Procurement & SAP

Managed purchasing and procurement operations, including international travel for supplier sourcing and business coordination. Used SAP to manage purchasing workflows, orders, supplier records and procurement administration, while coordinating import and export activities. Developed strong organization, responsibility, negotiation and cross-cultural communication skills.

LANGUAGES

English - Fluent **French** - Fluent **German** - Currently developing

PROFESSIONAL FOCUS

Primary targets: Junior Frontend Developer, Junior Web Developer, Junior React Developer and Junior Next.js Developer. Also open to suitable junior full-stack, frontend/UI, UI/UX development, trainee and internship opportunities in Essen, the Ruhrgebiet and across NRW.
